Mr. Ken Tang  
Director of Engineering and Public Works  
District of Sechelt  
P.O. Box 129  
Sechelt, BC V0N 3A4

Dear Mr. Tang

Re: Local Newspaper boxes.

Further to our correspondence with John Wild, the boxes for delivery of the Coast Reporter have been installed, are in use and are unacceptable.

I have had a discussion with Barbara Holt, of the Coast Reporter and she understands our concerns with the temporary boxes and the Coast will agree to the following upon your approval:

- • New boxes will be ordered and installed at each of the mail sites in Sandy Hook.
- • The new boxes will be brown and slightly larger than those pictured in the letter I received from John (Nov. 13/01) to accommodate another newspaper. We would expect the Coast to make some sort of agreement for use of the same boxes by other newspapers that may be started.
- • The boxes will be permanently installed on posts, in line and adjacent to the mailboxes.
- • There will be no commercial advertisements other than the Coast name and/or logo on the boxes.
- • The Coast Reporter will be responsible for cleanup if there happens to be newspaper or flyer litter.

Once Barbara has received your approval for the above, she will order the boxes.

If the new boxes can be installed prior to December 20,2001 we have no objection to the temporary boxes remaining. If however, they cannot be done by then we would like the "blue" boxes removed and the paper delivered to our mailboxes until the new boxes are installed.

Yours truly,  
Sandra Sharkey, President  
Sandy Hook Community Association
